ALL staff that I encountered were very helpful and attentive and I had no problems getting the swatches I needed to help me decide even though the store was very busy at the time. Tarek in Wool was particularly informative and helpful. I am so glad to discover that, when I need it, I will be assigned someone to help me with swatches via mail as I am based in Boston.

I love Mood! Even though I am not an experienced sewer, I always find what I need to make something fierce! The Sales Associates are there if I need them, but they also just let me browse. A perfect balance!
